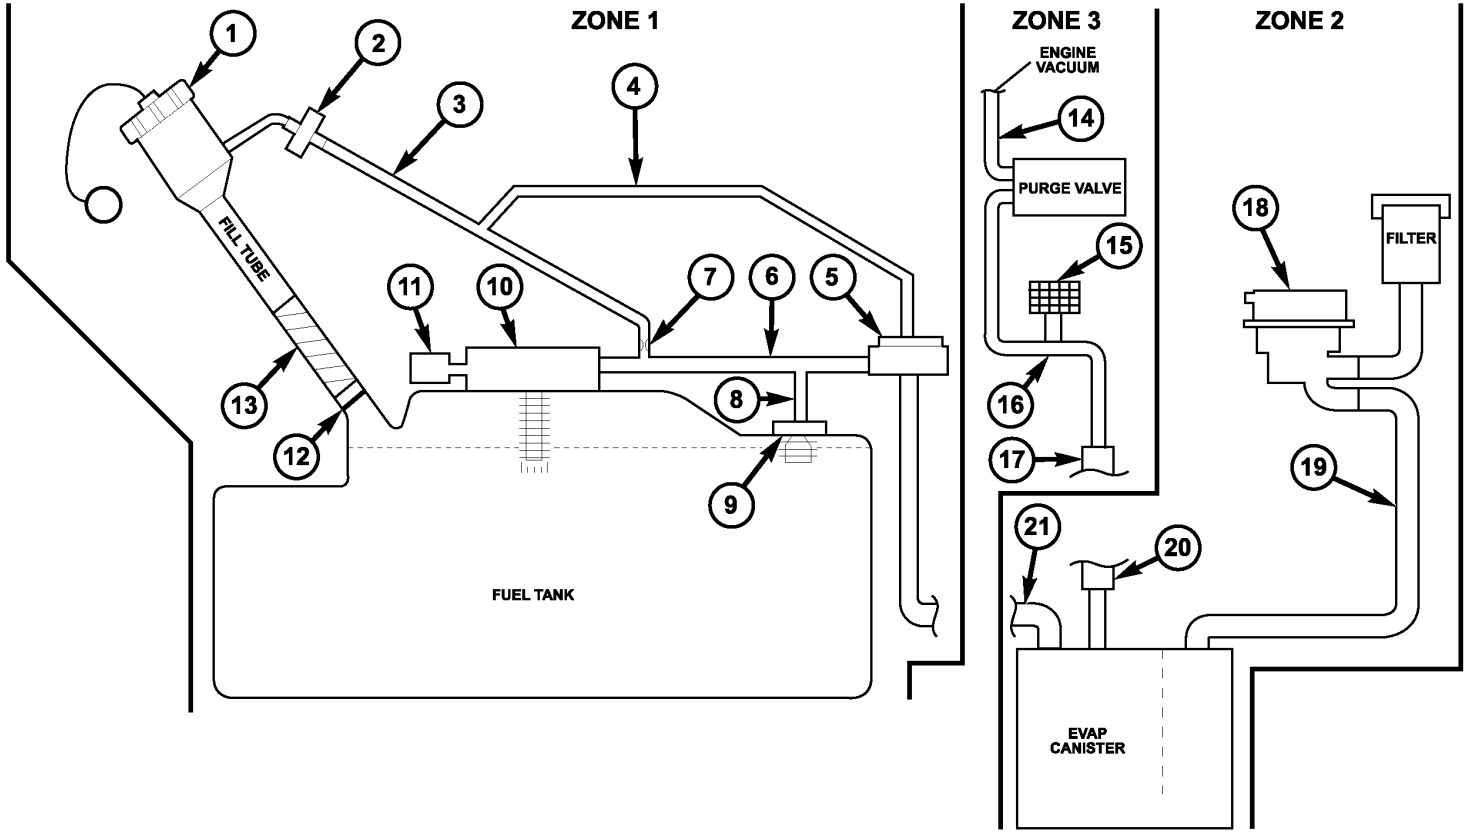
## Evaporative System Zones (typical view)



### Zone 1 System Components

1. Fuel Cap
2. Recirculation Check Valve*
3. Vapor Recirculation Line
4. Signal Vapor Line for FVM*
5. Flow Management Valve (FMV)*
6. Vapor Line to Canister
7. Flow Control Orifice
8. Vapor Line to Canister
9. Tank Vent Valve*
10. Control Valve
11. Liquid Trap*
12. Check Valve
13. Fill Tube to Fuel Tank Connection

### Zone 2 System Components

18. NVLD Assembly*
18. Leak Detection Pump*
19. Canister Vent Line
    (where required - nonintegrated NVLD Assembly)
20. Chassis Purge Line/Connection
21. Fuel Tank/Canister Vapor Line

(*where applicable)
(**if equipped)

### Zone 3 System Components

14. Purge Vacuum Line
15. Service Port**
16. Purge Line
17. Chassis Purge Line/Connection
